

EASY MACHINE ESERVICES PRIVATE LIMITED

COMPANY PROFILE

ABOUT US

We are a group of professionals having more than 10 yrs rich experience in Construction & Infrastructure sectors, started **Want Machine**, a web based online platform in the year 2019. The main objective behind Want Machine is to make easily available Construction Machinery to our end user. Here one can sell and rent his Machinery using our online platform www.wantmachine.in and also one can search to get his desired Machinery using this platform.

Later in the year 2022 we have started a newly modified web based platform namely **Easy My Project**. (www.easymyproject.com). In this platform we are going to provide all the necessary resources required to successfully complete a Construction Project.

We have our own dedicated IT professionals and a group of Sales & Marketing team working continuously to get maximum resources available for our end users. Beside all we are also developing Web Based ERP software for Construction & Transportation companies.

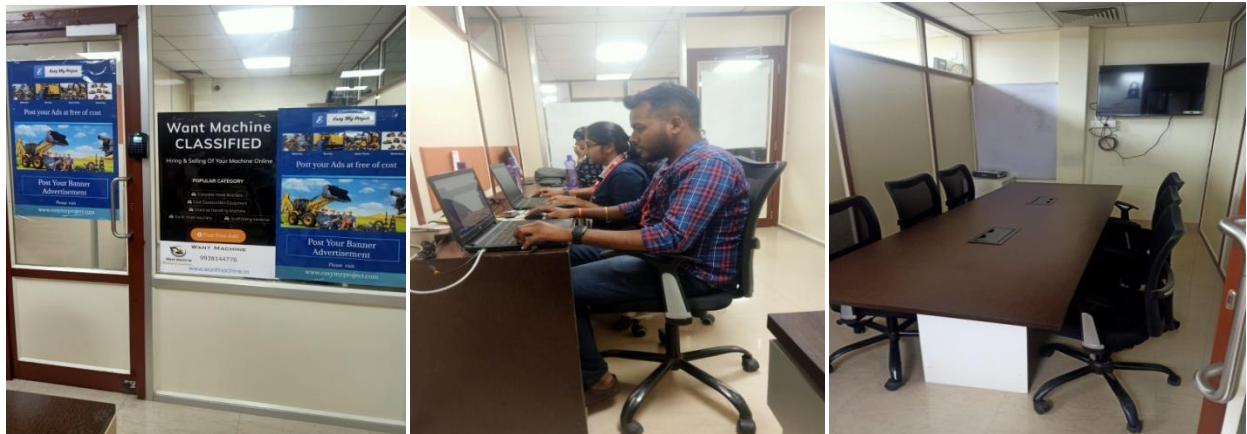

Currently we are having our Corporate Office in the city of Bhubaneswar, Odisha along with our branch office present at Jharsuguda, Puri, Bolangir, & Bargarh District. Our main focus is to cover all the 30 districts of Odisha by next 1 year and after then we will move to remaining states.

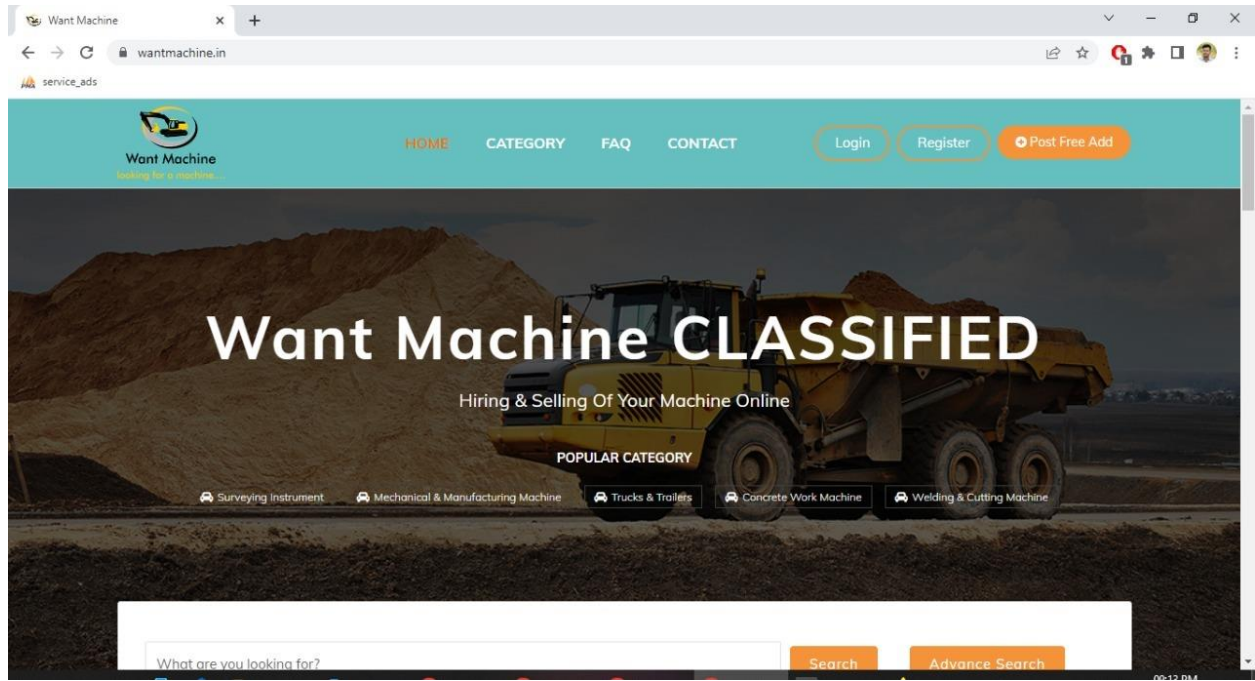

Thanking You

Anil Kumar Mohapatra

Managing Director

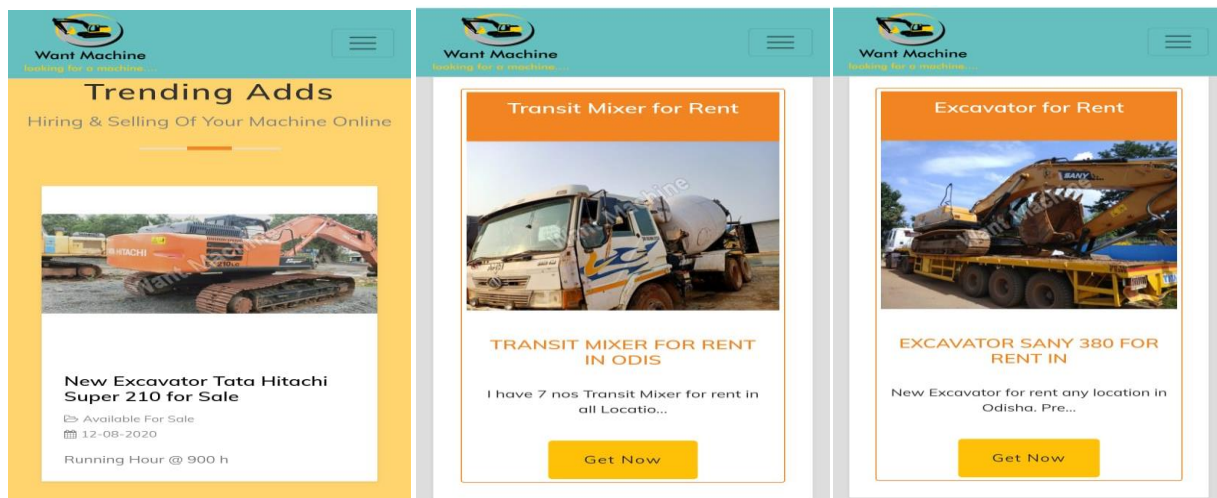

Easy Machine Eservices Pvt Ltd

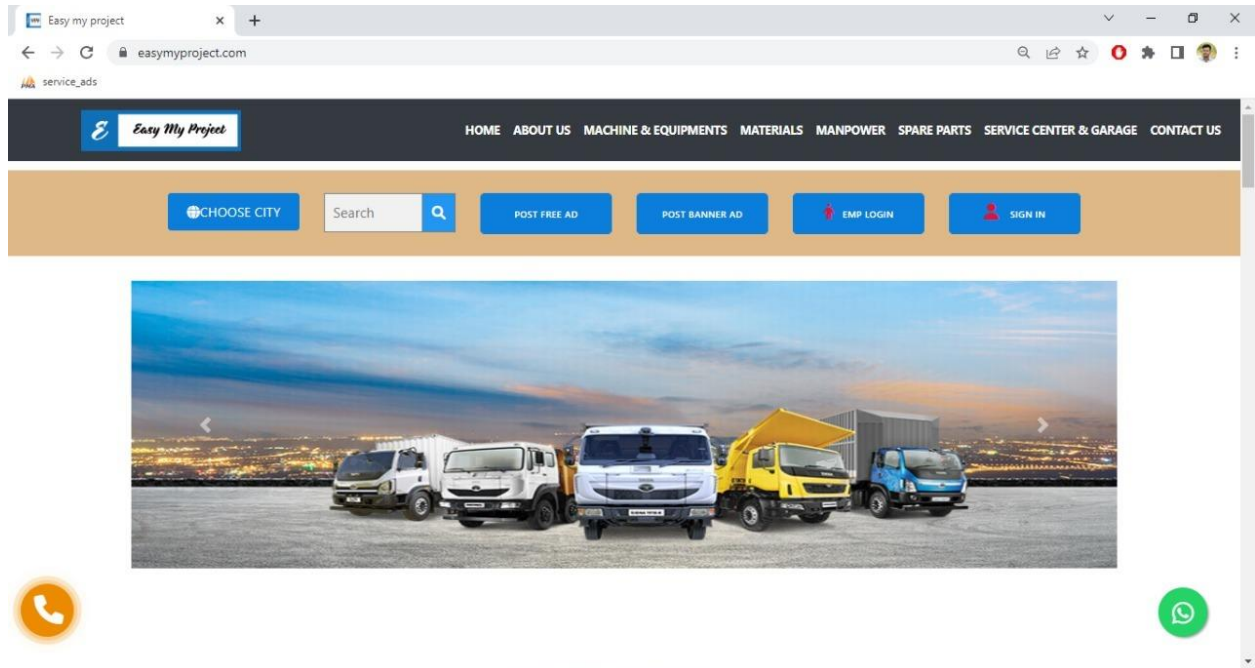

Want Machine

Want Machine is one of the best Equipment Selling & Rental Service Platform in India on the vision of it being a construction equipment aggregator in all States of India for used and hiring segment of construction equipments like Civil Construction Equipment, Concrete Work Machine, Drilling, Pilling & Boring Machine, Earth Work Machine, Material Handling Machine, Measuring Instrument, Scaffolding Material, Surveying Instrument, Mechanical & Manufacturing Machine, Road Work Machine, Trucks & Trailers, Welding & Cutting Machine. We are having 13 main categories supported by 170 sub category machineries listed in our website.

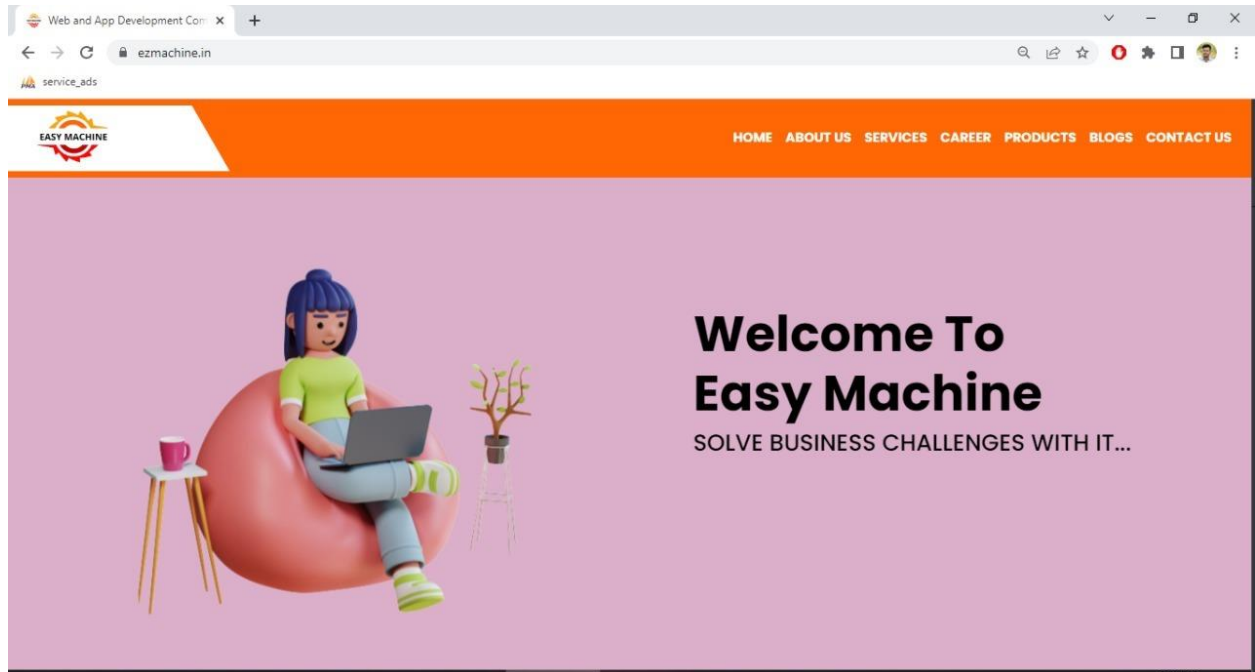

Easy My Project

Easy My Project as the name describes itself, how to complete a project easily. **Easy My Project** is a web based classified site where a user can get all resources at any location on his finger tip. We are the guide for the people those are related to Construction & Infrastructure sector. Here one can find all the resources to complete his project easily & quickly and also one can advertise his resources in the site. To simplify your search we divided all the required resources in five different Categories like Machine & Equipment, Material, Manpower, Spare Part and Service Centre. Our team makes this platform very much user friendly that one can view search and post ads by following some simple steps. As this is our new Project, we are continuously working to post the resources details ASAP in all the districts of Odisha State.
